EZ Flow Groundwater Bailers

A.

Oil Eater Design Bailer has a hydrophobic sock that absorbs free product.

B.

Single Check Ball Design Bailer has the largest water inlet along with a sleek, tapered design that is fast and accurate.

C.

Torpedo Design Bailer has a protruding check ball that eliminates potential aeration concerns.

D.

Double Check Ball Design Bailer offers additional protection during retrieval in higher sediment concentrations.

E.

All bailers include a standard bottom emptying device. VOC “controlled flow” emptying devices are also available.

A. EZ-FLOW Disposable Bailers: Oil Eater Design

Product Code	Bailer Diameter	Bailer Length	Bailer Capacity	Bailer Type	Check Ball / Valve	Bailer Material	Units Per Case	1 Case	2 to 4 Cases	5 to 10 Cases	11+ Cases
EZ-A6015-12	1.3"/3.3cm	20"/50.8cm	500mL	Oil Eater	None	Polypropylene	12	146.94	139.59	132.61	Please Call
EZ-A6030-12	1.3"/3.3cm	40"/1.1M	1.0L	Oil Eater	None	Polypropylene	12	279.18	265.23	251.97	Please Call

B, C. EZ-FLOW Disposable Bailers For Groundwater Sampling: Single Check Ball Design

Product Code	Bailer Diameter	Bailer Length	Bailer Capacity	Bailer Type	Check Ball / Valve	Bailer Material	Units Per Case	1 Case	2 to 4 Cases	5 to 10 Cases	11+ Cases
EZ3-B3111-24	1.6"/4.1cm	12"/30.5cm	350mL	Nonweight	Single	HDPE/PP	24	85.54	81.26	77.21	Please Call

Items listed are the most popular for our customers. If you require a custom length, weight or design, please give us a call!

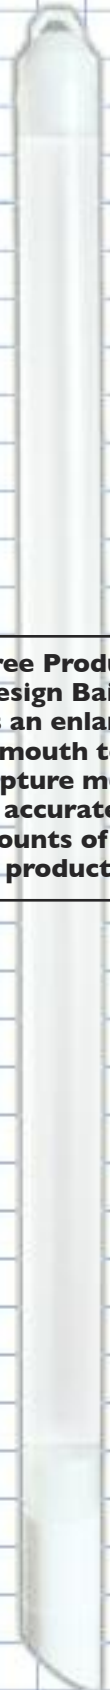

EZ Flow Specialty Bailers

Low Flow Design Bailer sinks and fills at EPA low flow rates.

Point-Source Design Bailer allows the user to retrieve samples from specific depths.

Free Product Design Bailer has an enlarged mouth to capture more accurate amounts of free product.

Sand Catcher Design Bailer uses three check balls for ultimate sample protection when working in extreme sediment environments.

All bailers include a standard bottom emptying device. VOC “controlled flow” emptying devices are also available.

F. EZ-FLOW Disposable Bailers For Groundwater Sampling: EPA Low-Flow Design

Titan & Original Bailers

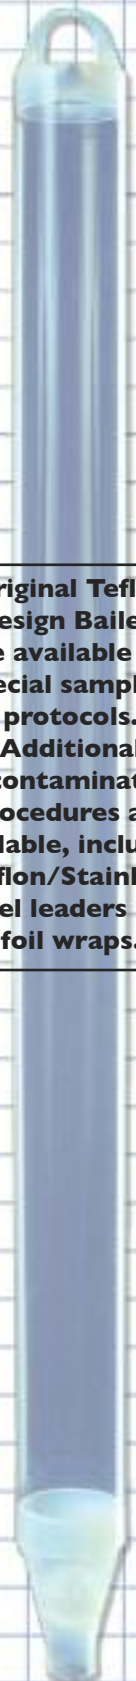

J.

Hemispheric Check Valve Design Bailer is patented and guaranteed not to leak. Heaviest bailer available.

K.

Original Design Bailers are for general sampling and available in 4 different diameters.

L.

Original Teflon Design Bailers are available for special sampling protocols. Additional decontamination procedures are available, including Teflon/Stainless steel leaders and foil wraps.

All bailers include a standard bottom emptying device. VOC “controlled flow” emptying devices are also available.

J. TITAN Disposable Bailers For Groundwater Sampling: Hemispheric Check Valve Design

Titan Groundwater Filters

• **ACCURATE**

Titan 5P filter (pump feed model) →

• **LOW COST**

← Titan 5G filter (gravity feed model)

• **FAST**

• **EASY TO USE**

Adapters available that attach Titan filter to EZ Flow Bailer design for Gravity Feed Filtration... very easy to use!

Our TITAN filters have 5 layers of accurate media!

The industry standard has only 3!

Available in .45, 1.0, 5.0, and 10.0 micron pore sizes!

Wider range of tube diameter fittings available!

Over 790cm² effective filtration area!

Large volume/high capacity!!

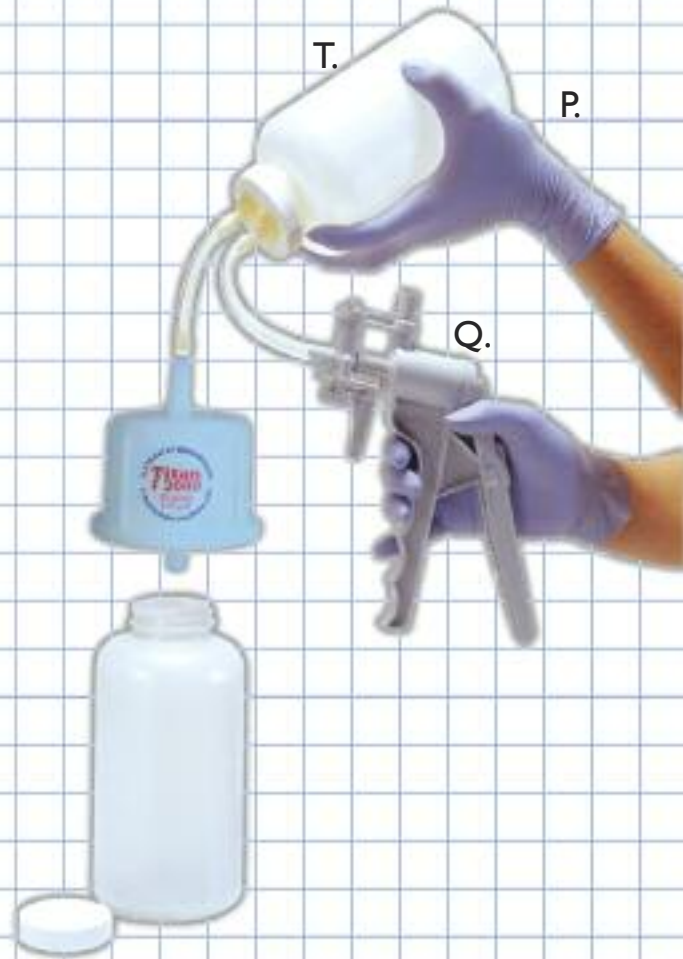

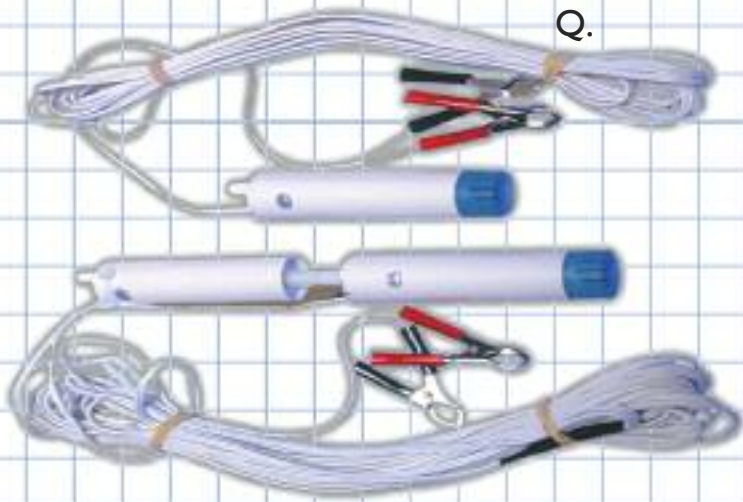

STANDARD INDUSTRY FILTER
